

Brick Mesh

Brick Mesh is a line of decorative Thin Brick made of 100% natural clay attached to a fiberglass mesh that allows you to install it easy and quick, having control of the spaces between brick. Brick Mesh can be installed on walls indoors and outdoors.

Benefits

Transforms any wall (concrete block, sheetrock, or Durock) into a brick-like wall.

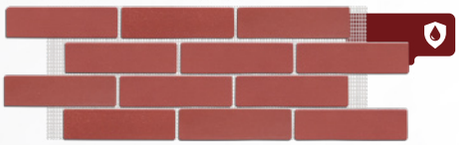

Made of natural clay with colors that will not fade under UV rays.

Quick installation, each brick mesh covers 2.9 sqft.

Better appearance of the grout since the separation of the pieces is controlled.
